

**'THE SUSTAINABLE WATER SUPPLY SOLUTION'**

## COMPANY AND PRODUCT BROCHURE

### **OUR MAIN PRODUCTS AND SERVICES:**

- ✓ smart & prepaid communal water meters / ATMs
- ✓ smart & prepaid water meters for individual connections
- ✓ consultancy for rural water schemes
- ✓ water services provision (Siaya & Homa Bay)

### MISSION:

Our mission is to revolutionize sustainability in the African water sector. We do that by offering several types of prepaid water metering solutions. With our prepaid meters in place, revenues go up by an average of 150%, operational costs go down and we ensure 100% online transparency.

### ADVANTAGES OF PREPAID WATER METERS/ATMs:

- ✓ improved revenue collection
- ✓ online monitoring
- ✓ cashless, everything digital
- ✓ reduced operational costs
- ✓ mobile payment integration

**BUSINESS OPPORTUNITY:** Purified Water Kiosks. Sell purified water via ATMs. Affordable for customers. Profitable for entrepreneurs.
